All sides and juices are an additional cost. Gratuities are not included.

THE CANMORE LEADER

EST 1869 FEBRUARY EDITION
ILLUSTRATED BY BI-MONTHLY NEWSPAPER

The Olympics are Here!

February 4, 1988
The temporary housing for our athletes has been removed, leaving us with a new swimming pool, curling rink, a club house, and part of what we believe will become an Olympic legacy, The Nordic Centre.

A survey of Canmore locals was taken last week. We asked if you think we have a future after the Olympics? The overwhelming response on the street is, "YES"!!

February 11, 1988
Everyone has been working hard to decorate their houses, and the town - and it looks great! Andrew Vincent, chair of the OCO will announce the winner of our Olympic Pageantry contest next week, so stay tuned!

We'd like to provide a special thanks to Ell's Hair West for providing all the athletes with spiffy new hair! As well as the staff of Tim's Cleaning Service for keeping the town in wonderfully presentable ship-shape!

February 18, 1988
Mayor Paula Andrews proudly raised the Olympic Torch today. Almost five-thousand citizens lined the streets to take part in the torch relay. The torch even passed through the Bow River Lodge where ninety-eight year old Norma Austin angustly captured the torch.

CARRYING THE TORCH

After the Canmore mines were shut down on July 13, 1979, the town struggled to stay alive, bolstered only by its close proximity to the popular town of Banff. The announcement that the Cross Country events for the Winter Olympics of 1988 would be held in Canmore brought the town back to life and quite possibly saved them from looming economic disaster. After the excitement of the Olympic Games dispersed, Canmore was left with a great legacy, a vibrant ambiance, and The Canmore Nordic Centre.

11

THE TALE OF THE THREE SISTERS

In 1883, Mayor Rogers of Canmore decided to let his nephew, Albert Rogers, name the three monolithic mountains that overlooked the sleepy town. The snow-capped peaks were said to look like nuns; this was later transposed into "Sisters".

The **little** sister, Hope, features a large blocky plateau at its peak and is the most difficult to climb.

The **middle** sister, Charity, is a very popular intermediate scramble.

The **big** sister, Faith, is the peak farthest from the highway and is an easy limestone scramble.

Hope

Charity

Faith
