### DID YOU KNOW

The Georgetown Inn is named after a small mining community established to serve the Georgetown mine, which opened in early 1911. In 1914, at the beginning of WWI, company funds and coal markets dwindled, resulting in the Georgetown Mine shutting down within three years of inception. A few of the original miner's cabins were relocated to Canmore by sliding them over the ice of the Bow River. Some of the homes still stand in Canmore today.

You can visit the site of the original town, located near Mount Rundle. It is an easy 11.2km (7 mile) hike and you can still see the foundations of several buildings, as well as the slag heap, mining chutes, and mine shaft.

Some of the options on our menu can be made gluten-free. However, grills and fryers are also used to cook gluten meals. Please ask your server for details.
